About IIMM

The Indian Institute of Materials Management (IIMM) is a leading non-profit professional organization with a wide-reaching network of 52 branches and 19 chapters across India. With a membership base of around 10,000 individuals and over 300 institutional members from both the public and private sectors, IIMM's core strength lies in offering corporate training programs. It collaborates globally with the International Federation of Purchasing and Supply Management (IFPSM), based in Finland, which represents members from over 44 countries. To maintain global standards in delivery, IIMM offers its flagship program, the Diploma in Supply Chain Management (DSCM), a one-year program aimed at working professionals to help them upgrade their skills. The Chennai branch, established in 1965.

Program Overview: Productivity & Profitability Improvement Using Lean Six Sigma

In today's competitive business world, MSMEs must focus on increasing productivity while minimizing costs. This workshop offers actionable insights and proven methods to help businesses improve:

- **Productivity:** Streamline operations and enhance output with minimal resources.
- **Profitability:** Cut costs and improve margins.
- **Defect Reduction:** Minimize defects for high-quality outcomes.
- **Cost of Quality (CoQ):** Learn to identify and reduce hidden production costs.
- **Practical Tools:** Apply Lean Six Sigma techniques immediately in your operations.

Why Attend?

This workshop is tailored for MSME owners, professionals, and enthusiasts who seek to improve business outcomes. Key benefits include:

Boost Productivity by streamlining operations ! **Enhance Profitability** through cost-cutting strategies ! **Implement Lean Six Sigma Tools** to eliminate waste and improve efficiency ! **Gain Actionable Insights** that can be directly applied to your business.

Who Should Attend?

This workshop is ideal for:

- **MSME Owners & Entrepreneurs:** Learn strategies to optimize resources, reduce waste, and increase profitability.
- **Quality & Production Professionals:** Enhance your expertise in process improvement and cost management.
- **Manufacturing & Service Industry Professionals:** Apply Lean Six Sigma to improve business outcomes across various sectors.
- **Process Improvement Enthusiasts:** Whether new or experienced with Lean Six Sigma, gain valuable insights.

Workshop Coverage

Lean Six Sigma Fundamentals: Understand core principles and their impact on MSME operations.

Waste Reduction: Identify and eliminate waste in production and service processes.

Cost of Quality (CoQ): Understand hidden costs and how to reduce them.

- **Prevention Costs:** Expenses to avoid defects.
- **Appraisal Costs:** Costs of quality measurement.
- **Failure Costs:** Costs of defects in production.

Practical Problem-Solving Tools:

- **DMAIC:** Define, Measure, Analyze, Improve, and Control.
- **Pareto Analysis:** Identify key issues causing major problems.
- **Fishbone Diagram (Ishikawa):** Root cause analysis.

5 Whys: Dig deeper to uncover the causes of problems.

Case Studies & Real-World Applications: Learn from success stories across various industries.

- **Interactive Q&A & Hands-on Exercises:** Practical exercises to apply concepts to your business challenges.

Learn from the Experts!

The workshop will be led by Dr. Gopal Sivakumar, CEO of Vision Excellence Consulting Pvt. Ltd., an expert with over 20 years of experience in Lean Six Sigma methodologies. Dr. Sivakumar has successfully helped numerous MSMEs and large corporations optimize their processes and profitability.
